WEATHER FORECAST—Wednesday fair.

A Spring Sale of New Silk Waists

Some are shown in the Broad-street windows—others in the Waist Department, second floor—but note this fact in connection with these garments—no sacrifice of quality, style or fine tailoring has been made to secure a "cheap" waist, and yet the price for any one of them is very low—notably so the first one we mention:

White China Silk Waists, \$2.98.

The man that made them wrote us the other day that we couldn't have any more at that price. Claims he sold them too low. Shouldn't wonder if he did, as they're the best values in a China Waist we've ever had to sell at \$2.98. Fine quality of silk, with fagotting down the front and trimmed with chiffon appliques; full sleeve, tab collar.

WHITE CHINA SILK WAISTS, with embroidered fronts, \$3.48.

WHITE CHINA SILK WAISTS, with plain tucks, \$3.98.

WHITE CHINA SILK WAISTS, round tucked yoke with lace inserting, or waists with a Val yoke attached, \$5.00.

Fine quality of BLUE PEAU DE SOLE WAISTS, tucked and trimmed with appliques, \$5.00.

WHITE CHINA SILK WAISTS, with heavy beaded inserting and trimmed with appliques, \$7.50.

SURAH SILK WAISTS in white and champagne color, trimmed with white appliques. One of the most stylish garments in the house—\$7.50.

PEAU DE CYGNE WAISTS, in white and green, with the entire yoke trimmed in applique work—new style—\$10.00.

SILK CREPE DE CHINE WAISTS, in white and champagne color, beautifully tucked, with a fancy yoke and a cape which is trimmed with little buttons and straps—\$10.00.

GERMANS FIGHT THE A. T. COMPANY

Important Decision in Berlin Court Reported by Consul Harris.

The very liveliest interest is felt in tobacco circles here in the movement of this American Tobacco Company to secure control of the German market. In this connection the information given below will command attention. It is the report of Consul H. W. Harris at Mannheim, Germany, published yesterday in bulletin by the Department of Commerce and Labor at Washington:

A decision recently rendered by a court at Berlin has attracted somewhat wide attention in this part of Germany. It was some months ago brought by the German Tobacco Company, led by various associations and individuals, against the American Tobacco Company, which had been attempting to establish a monopoly in the German market.

The announcement within the past year that the American Tobacco Company had been granted a license to manufacture and sell tobacco in Germany, led to various associations and individuals interested in German tobacco, to take action against the company.

The announcement within the past year that the American Tobacco Company had been granted a license to manufacture and sell tobacco in Germany, led to various associations and individuals interested in German tobacco, to take action against the company.

METEOROLOGICAL.

Monthly Bulletin Issued by the Weather Bureau.

The meteorological summary issued by the local weather bureau for the month of February is as follows:

Date.	Max.	Min.	Mean.	Precip.

LEAVE THE WORK.

Three Missionaries Have Resigned—Brief Mission Notes.

Rev. W. M. Perry and wife, who returned home from Africa on account of the sickness of the latter, are now in Virginia, where they will likely locate. They have severed their connection with the Foreign Mission Board.

Mrs. A. M. Moore, formerly Miss Anna Green, since her marriage and removal to

FINE WORK ON BOTH SIDES

House Nearly Completes Consideration of General Appropriation Bills.

MANY BILLS ARE OFFERED

Mr. Holt Would Make Launching of "Virginia" Great Event. Two Sessions Held.

Both houses of the General Assembly held two sessions yesterday, and disposed of a large amount of work. Among the features of the Senate side was the offering of bills by Mr. Holt, appropriating \$10,000 for a silver service to be given by the State to the battleship Virginia, and making April 5th the day of its launching, a legal holiday.

The Senate passed the bill providing for the collection of the Confederate muster rolls of the State, and it now only awaits the signature of the Governor in order to become law. The body confirmed the nomination of Labor Commissioner Doherty for a term of two years from date of appointment, a large number of bills on the calendar.

Both sessions of the House were full of interest. The "pistol toting" bill of Mr. Hoge, providing mandatory jail punishment for the offense, was discussed at some length, but gave way to the special order at 12:30 P. M. The body considered and practically approved nearly every item in the general appropriation bill, and it will be engrossed to-day, but they will likely go the way of these offered yesterday, when the body refused to change a line of the report of the Finance Committee.

Mr. Holt, upon the recommendation of Chairman Boaz, the changes made did not affect the integrity of the bill, but were only perfecting in their nature.

A large number of bills were offered in the afternoon session, but gave way to the special order at 12:30 P. M. The body considered and practically approved nearly every item in the general appropriation bill, and it will be engrossed to-day, but they will likely go the way of these offered yesterday, when the body refused to change a line of the report of the Finance Committee.

The Senate. The Senate was called to order at noon yesterday by Mr. Wickham and the body proceeded to business without the benefit of prayer.

After the introduction of a small batch of new bills, Senate bill 164 was taken up and passed. The bill extends the time sixty days, from March 1st to May 1st, in which corporations may pay the annual franchise tax provided for by the Corporation Commission.

House bill No. 109, to authorize the construction of a bridge across the York River, was taken up and passed. The bill was introduced by Mr. Smith in the Capitol Square, was taken up and passed.

Senator McIlwaine's bill, amending section 327 of the Code, was taken up and passed. The bill was introduced by Mr. McIlwaine in the Capitol Square, was taken up and passed.

The special and continuing order of 12:30 was taken up and passed. The bill was introduced by Mr. McIlwaine in the Capitol Square, was taken up and passed.

Senate bill No. 62, to prohibit non-residents becoming stockholders in companies organized to catch oysters and fish, after brief discussion the bill was passed by a vote of 12 to 10.

Senate bill No. 47, the special and continuing order of 12:30, came up on a motion to reconsider the vote by which it was ordered to engrossment. After some minor amendments had been adopted the Senate refused to order the bill to engrossment. The dead bill proposed to appropriate \$17,000 per annum for two years to the Medical College of Virginia.

Senate bill No. 88, known as the Shackelford snailpox bill, was discussed at some length, an amendment or two voted down and the bill passed. It requires any person, firm or corporation employing large bodies of laborers to have the same inspected by local boards of health. The object of the bill, as briefly explained by its author, is to prevent the spread of snailpox in communities where railroads and other works are constantly

carrying large numbers of laborers from everywhere.

MEASURE WENT OVER. Senate bill 81 came up on its first reading, and it was expected it would bring out some lively political discussion, but it did not. It is the congressional appropriation bill, the exciting feature of which is the proposed change of the geographical lines of the First and Second Districts, throwing Newport News and some of the surrounding counties into the First District, who are opposing the bill had not expected it to come up until today, and therefore waited it passed by Senator Holt, of Newport News, urged the adoption of the bill, and in so doing explained the unpopularity of the bill. Newport News and the surrounding counties are opposed to the bill, and the necessity for the shipyard city getting out of the Second District. In reply to a question the senator admitted that his city "was in the middle of a fix," the Second District wanted to be rid of it, and after further discussion by Messrs. Walker, Bears, Sale and Holt, further consideration was passed by until to-day.

The "Gypsy" bill, House bill No. 34, imposing a license tax on strolling bands of gypsies, who play the violin and sing, after brief discussion was passed. Senators Mann and Hutcheson urged the passage of the bill and Senator Evans opposed it.

At 1:50 the Senate went into executive session and confirmed the appointment of James R. Dougherty to be labor commissioner.

Afternoon Session. At the afternoon session of the Senate there was a small attendance, at times only a few being present, and only such business as was not contested could be considered, but the Senate made some headway in clearing up the calendar.

House bill No. 40 to provide for the collection of the muster rolls of the Confederate soldiers and sailors furnished by Virginia and soldiers furnished by Virginia, was taken up and passed. The bill was introduced by Mr. Holt, of Newport News, and was taken up and passed.

House bill No. 139, making an appropriation for the Virginia State Horticultural Society, was also passed.
